### EXAMINER'S AMENDMENT

1. An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. An extension of time for three MONTH(S) (third month) is required. The Petition For Extension of Time for two months filed on December 11, 2008 authorized the Director to charge any fees which may be required to Deposit Account Number 07-2100. The required fee of \$620 for the third month extension has been charged to Deposit Account Number 07-2100.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronald E. Greigg on December 22, 2008.

The application has been amended as follows:

#### **Claims 32-34 have been canceled.**

3. Claims 32-34 recite the "first and second outlet cross sections" that are readable only on the first outlet cross section 77 and the second outlet cross section 78 of Species D (figure 4). Parent claim 23 recites "a control chamber (20) hydraulically connected to the high-pressure chamber (19)." The recitation renders claim 23 generic to Species A-C (figures 1-3). The specification discloses, in paragraphs 54, 57 and 59, that the second sealing sleeve 81 seals the control chamber 20 from the high-pressure

chamber 19. There appears to be no disclosure, as originally filed, that the control chamber 20 is hydraulically connected to the high-pressure chamber (19) in the embodiment of figure 4.

4. Claims 20, 21, 23-25, 27 and 30 are allowable. Claims 26, 28, 29 and 31, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement among inventions of Species A-C, as set forth in the Office action mailed on November 27, 2006, is hereby withdrawn** and claims 26, 28, 29 and 31 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher S. Kim whose telephone number is (571) 272-4905. The examiner can normally be reached on Monday - Friday, 8:30 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Len Tran can be reached on (571) 272-1184. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
